“ *Going to church with Mike and family was such a pleasure. He never once missed a time to speak to me and asked how I was doing are anyone else. I may not have been greeted by everyone every Sunday or Wednesday, but Mike and Janie always did just that. He didn't just say hi he talked to you about your day and always asked about your family. If he knew you had a family or friend on prayer list and you did not mention a update he would ask about them. Mike you will be deeply missed by your family but by your church family also. Love your Sister in Christ Sue*
